SNDWAY

LASER DISTANCE METER

SNDWAY SW-MS100 Laser Distance Meter Digital Professional Range Finder Laser Meter Mini Rangefinder Laser Trena Measuring Tool

Product advantage:

- Durable Design Housing in IP54 rating, this rangefinder is dust and splash proof for outdoor use
- Pythagorean and Area/Volume/Pythagorean Longer LCD with backlight and multi-line display for easy readability
- Advanced Technic Incorporates self calibration and automatic shutdown for extended battery life
- High Accuracy Laser allows precision for reliable measurements, ensuring accuracy in every reading
- Versatile Measurements Range Offers a wide measuring range from 50M to 100M, catering to diverse projects

Specifications

Original Location/ Material	Nonse	Certification	CE/FCC/RoHS etc.
Origin	Mainland China	Size	108x40x25.5mm
Brand Name	SNDWAY	Model Number	SW-MS100/SW-MS200
Measurement Accuracy	±1mm (0.05"/inch)	Dimension	108*40*25
Self calibration	YES	Wide measuring range	YES
High accuracy	±1mm (0.05"/inch)	Automatic calculation of Area and Volume	YES
Easy Hold, Clear clear function	90 units	Area / Pythagorean / Volume	YES

Description

SNDWAY SW-MS50 MS70 MS100 MS200 Laser Distance Meter Digital Rangefinder Laser Measuring Meter Professional Range Finder 50M 70M 100M 200M

Tags: the product does not include batteries.

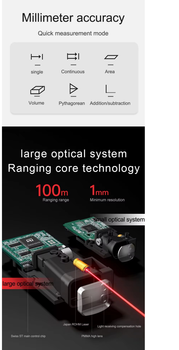
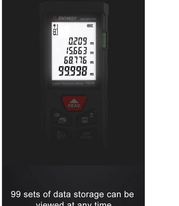
Specification

- Instant measurement of distance, area & volume with one button operation YES
- Pythagorean YES
- Wide measuring range YES
- High accuracy ±1mm (0.05"/inch)
- Automatic calculation of Area and Volume YES
- Indirect measurement by Pythagorean Theorem YES
- Dropdot Continuous measurement YES
- Easy Hold, Clear clear function YES
- Easy Addition/ Subtraction of measurement YES
- Tab up hook / tab bendsheet YES
- Self calibration and automatic shutdown YES
- Data more recall function YES
- Measuring range 50M/70M/100M/200M
- IN Bubble Level YES Included
- Durable Design Housing in IP54 rating
- Large LCD with backlight and multi-line display YES
- Auto correction and error repair technology YES
- Measure in m/in/ft YES
- Battery Saving mode yes YES
- IP54 protection (dust & splash proof) YES
- Wide measuring range YES
- Pythagorean with intelligent calculation YES
- Convenient hook, hanging YES
- Tilt Sensor, Bubble Level YES



Millimeter accuracy

Quick measurement mode



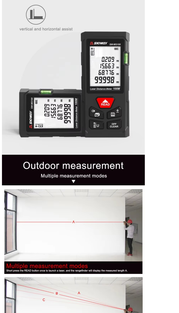
large optical system Ranging core technology

100m Ranging range

1mm Minimum resolution

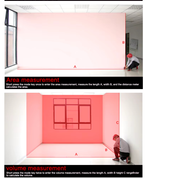
HD Backlight

Convenient for use in dark environments



99 sets of data storage can be viewed at any time

Large-capacity data storage, record without paper and pen



withstand the splash also withstand the collision

Made of ABS engineering plastic, with IP54 dustproof and waterproof

High precision horizontal bubble

Clear observation of horizontal and vertical to improve measurement accuracy

Outdoor measurement

Multiple measurement modes

AUTOMATIC PYTHAGOREAN AREA

Automatic Pythagorean Area, Area and Volume calculation, suitable for complex measurements

CONTINUOUS MEASUREMENT

Continuous measurement, suitable for measuring the same, and the magnitude, whether for vertical or level or diagonal, can be quickly and easily calculated

AREA MEASUREMENT

Area measurement, suitable for measuring the area of the same, and the magnitude, whether for vertical or level or diagonal, can be quickly and easily calculated

PYTHAGOREAN MEASUREMENT

Pythagorean measurement, suitable for measuring the same, and the magnitude, whether for vertical or level or diagonal, can be quickly and easily calculated
