Trena Lazer Range Finder  
Tape Measure

Meet the Digital Laser Measuring Tape – your go-to for precise measurements in construction and DIY projects. With a range of 0.05 to 40 meters, accuracy to the millimeter, and features like automatic backlight and continuous measurement, it's your compact solution for efficient tasks. The package includes the laser meter, manual, and comes neatly packed in a gift box. Upgrade your toolkit with this versatile and user-friendly rangefinder.

### Features

- **Impressive Work Range:** The Digital Laser Measuring Tape boasts a substantial work range from 0.05 to 40 meters, providing versatility for various measuring applications.
- **Precision Accuracy:** With an accuracy of  $\pm(2\text{mm} + d \cdot 10^{-4})$ , this laser rangefinder ensures precise and reliable measurements for your construction, renovation, or DIY projects.
- **Reference Points for Convenience:** Featuring two reference points (rear and front), users can choose the most suitable reference point based on their specific measurement needs, enhancing flexibility.
- **Automatic Backlight:** The automatic backlight function enhances visibility in low-light conditions, ensuring accurate readings even in dim environments.
- **Multiple Measurement Units:** Choose from a range of measurement units, including meters, inches, and feet, catering to different project requirements and user preferences.
- **Continuous Measurement Capability:** The device supports continuous measurement, allowing users to measure distances continuously without the need to reset for each new measurement.
- **Area/Volume Measurement:** Enjoy the convenience of area and volume measurement functionalities, streamlining calculations for spaces and quantities in construction or design projects.
- **Pythagorean Theorem Mode:** The full Pythagorean mode enables users to calculate distances indirectly, making it ideal for situations where direct measurement is impractical.
- **Min/Max Value and Self-Calibration:** Benefit from the Min/Max value functionality for comprehensive data analysis. Additionally, the self-calibration feature ensures the accuracy of measurements over time.
- **Button/Keys Sound:** The button/keys sound feature provides auditory feedback, confirming successful measurement inputs and enhancing the overall user experience.
- **Automatic Shutdown:** To preserve battery life, the laser measuring tape includes an automatic shutdown feature that activates after 150 seconds of inactivity.
- **Power Supply:** The device is powered by two 1.5V AAA batteries (not included), offering a convenient and widely available power source.
- **Complete Package:** The package includes the laser meter, a user-friendly manual, and comes neatly packed in a gift box, ensuring a comprehensive and organized experience for users.

Upgrade your measuring toolkit with the Digital Laser Measuring Tape – a reliable and feature-rich solution for accurate distance measurements in construction and beyond.

## SPECIFICATIONS

- **Work Range:** 0.05-40m
- **Accuracy:**  $\pm(2\text{mm} + d \cdot 10^{-4})$
- **Reference Point:** 2 (rear, front)
- **Automatic Backlight:** Yes
- **Measurement Unit Options:** m/in/ft
- **Continuous Measurement:** Yes
- **Area/Volume Measurement:** Yes
- **Pythagorean:** Full mode
- **Add and Subtract:** NO
- **Min/Max Value/Self-Calibration:** Yes
- **Button/Keys Sound:** Yes
- **Automatic Shutdown:** 150s
- **Power Supply:** 2x1.5V AAA (not included)
- **Packing Contents:**
  - 1 \* Laser Meter
  - 1 \* Manual
  - 1 \* Gift Box
